## Expansion of the Executive Board team

### **TRILUX appoints Sebastian Trägner as Chief Technology Officer (CTO)**

**Arnsberg, February 2024 - TRILUX announces the admission of Sebastian Trägner to the Executive Board with effect from February 1, 2024. Trägner will assume responsibility for production and the Group's entire research and development activities in his new role as CTO. With Hubertus Volmert (CEO), Johannes Huxol (CFO) and Joachim Geiger (CSO & CMO), he will continue to drive innovation and growth for the German market leader in professional lighting.**

Sebastian Trägner has extensive knowledge in the technical field. Over the last 20 years, the 39-year-old industrial engineer has held important positions within TRILUX production and has been head of this area since 2019. In recent years, production has been automated and modernized under his leadership.

"In Sebastian, we have been able to recruit a first-class specialist from our own ranks for the position of CTO," says a delighted Hubertus Volmert. "With his technical expertise and commitment, he will significantly contribute to further develop our solution portfolio and strengthen our competitiveness."

Sebastian Trägner is already familiar with his new area of responsibility thanks to his many years of work at TRILUX: "I am very pleased with the trust placed in me and will work with the team to drive forward the key topics of sustainability, digitalization and artificial intelligence in production and development to make the best possible use of the associated potential for both our customers and our organization," says Sebastian Trägner, describing his new area of responsibility.

### About TRILUX

TRILUX SIMPLIFY YOUR LIGHT stands for the simplest and safest way to a customized, energy-efficient and sustainable lighting solution. In the dynamic and increasingly complex lighting market, the customer receives the best advice, optimum orientation and the perfect light. To ensure this claim, TRILUX relies on a broad portfolio of technologies and services as well as efficient partners and companies of the TRILUX Group. The lighting specialist combines individual components to create customized complete solutions - always perfectly tailored to customer requirements and the area of application. This means that even complex and extensive projects can be realized quickly and easily from a single source. In the spirit of SIMPLIFY YOUR LIGHT, the focus is always on the planning, installation and user-friendliness of the solutions for the customer in addition to quality and efficiency.

The TRILUX Group operates six production sites in Europe and Asia and serves international customers through 30 subsidiaries and numerous sales partners. The lighting division includes the brands TRILUX SIMPLIFY YOUR LIGHT, Oktalite and Zalux. Affiliated companies include wtec, Crosscan, ICT and the online platform watt24. As the department for research and development, the Innovation Center bundles the innovative strength under the TRILUX umbrella. With locations in Germany, Austria, the Netherlands, Belgium, Great Britain, France and Switzerland, the TRILUX Academy provides the necessary know-how on topics, trends and innovations in the lighting industry. In total, TRILUX employs almost 5,000 people worldwide, with its headquarters in Arnsberg.
